

PROCEEDINGS OF THE

13th NATIONAL HORTICULTURE SEMINAR 2022

23rd-24th March 2022, Kirtipur, Kathmandu, Nepal

Theme: "Advancing Horticulture for Fallow Land Utilization and Commercialization"

NEPAL HORTICULTURE SOCIETY

Nepal Horticulture Society (NHS) was established in 1990. Since then, this society is publishing its journal and workshop/seminar/conference proceedings representing national and international level event. This is the seminar proceedings of 13th national horticulture seminar, 23-24 March, Kirtipur, 2022. *Nepalese Horticulture* is an official publication of the society as the journal. Earlier volumes of journal and proceedings are also available in NHS website <https://horticulturenepal.org/>.

Being a professional society, NHS is bringing together all the horticulturists working in diverse fields including private businesses. The NHS offers different types of membership schemes for all the graduates and professionals working in horticulture development.

For recent publications, membership, and any correspondence
