Nepal Plant Disease Associates (NPDA)

NPDA is a private organization established by a group of senior plant pathologists, retired from Nepal Agricultural Research Council (NARC). It has been established to learn, share and transfer of knowledge related to the commercialization of agriculture and enhance private sector's role in the field.

NPDA:

- provides services on plant disease diagnosis, seed health testing, disease survey and management options.
- provides training and consultation services.
- collaborates with government and non-governmental organizations, academic and research institutions and private agencies.
- guides students, interns and researchers.
- publishes books and technical bulletins (also on demands).
- brings in other experts to carry out functions under contract.
